

Support during your hospital stay

Supportive and Palliative Care for Kaiser Permanente members

We help relieve the symptoms and stress of receiving treatment for a serious illness. Our services include:

- Partnering with you, your family, and your hospital care team to make sure your treatment and care match your goals, beliefs, and values
- Helping you and your medical team manage your pain and other symptoms
- Providing emotional support for you, your family, and your caregivers

For more information:

Talk to your doctor or nurse if you'd like one of our team members to visit you. If you've already been referred to our program, we'll be contacting you to schedule a meeting.

We look forward to participating in your care during your hospital stay.
