

Hello, Seattle

Shaping the future of health care

- Kaiser Permanente is recognized as one of America’s leading health care providers and nonprofit health plans. We currently serve 11.8 million members in 8 states and the District of Columbia.
- We focus on providing high-quality, affordable health care. We’re dedicated to care innovations, clinical research, health education, and community health.
- We work closely with regulators and legislators to support the availability of stable coverage and care for everyone, protect consumers from prescription drug price gouging, address the opioid epidemic, promote funding for public health, and much more.

Investing in the local region

- Kaiser Permanente acquired Group Health Cooperative in 2017 and established the Kaiser Permanente Washington region. We’re now continuing and expanding on Group Health’s longstanding commitment to provide great care to members and local communities.
- We’re opening new medical offices throughout the region to provide more access to care for area residents.
- We’ve committed \$400 million to renovate and redesign our flagship campus on Capitol Hill in Seattle by 2022.
- We’re investing \$1 billion over the next decade to expand and update our facilities and technology in Washington state.

Supporting our communities

We believe that everyone has the right to good health, quality health care, and a healthy community. A few of the community health programs we support include:

Seattle/King County Clinic, a free health clinic held annually at KeyArena in Seattle. This 4-day clinic provides medical, dental, and vision care to underserved and vulnerable populations in our region.

YouthCare's Orion Center, which provides services to youth up to age 22 who are homeless or in unstable housing in the Seattle area. In addition to helping fund the program, Kaiser Permanente's medical residency program provides medical care for Orion Center clients.

Sound Generations, which helps older adults of all income levels, abilities, and cultures with programs that include Meals on Wheels, Enhance®Fitness, Volunteer Transportation, and Living Well workshops.

School-based health clinics in King County, which give kids easy access to health care in a safe, confidential school setting. We provided more than \$2 million in care for 7,500+ students at 8 schools in 2017.

Medical financial assistance to help low-income, underinsured people get the health care they need. In 2017 we invested \$30 million in care and served about 25,000 Medicaid members statewide. More than half of the Medicaid members we serve are children.

2018 Special Olympics USA Games

Kaiser Permanente is the Official Health Partner for the Games, taking place July 1 to 6 in Seattle.

Nearly 3,500 athletes, plus 1,000 coaches and tens of thousands of spectators and volunteers are expected to attend.
